E50 PALLETIZER

The E50 model Palletizer is considered the Cadillac in the palletizing world. Its method of stacking is superior because it can form, squeeze and compress the bags or boxes from all sides, making perfectly stacked pallets. The layout of the machine is flexible and can be incorporated into any bagging line. The machine is operated by a touch screen display

EZRATEK

STACKING RECIPES ARE EASY TO MAKE AND CAN BE QUICKLY CHANGED BY THE OPERATOR.

EZRATEK OFFERS COMPLETE BAG INFEED LINES WITH A BAG TURNER OR A BAG KICKER.

- Touch screen controlled and easy to operate
