

AUTOMATIC BAGGER

The Ezratek Automatic Bagger provides another level of automation to your production line.

The machine separates, hangs and sews the bag.

Machine options include a tail separator, gusset reforming, and a tagger to fit your production line needs.

EZRATEK

The machine is operated by an easy-to-use touch screen display.

Various bag settings are stored within the machine to allow for a simple change between bags.

- Easy-to-use touch screen controls
- Up to 30 customized recipes

CAPACITY

Up to 500 bags per hour
